

MESSAGE FROM TOBY LOUIE

Assistant Deputy Minister
Superintendent of Motor Vehicles

Hi RSBC!

Welcome back, everyone. It's genuinely good to see us all together again after what's been a challenging few weeks — unlike anything we've experienced before.

This time apart affected all of us — you felt it, I felt it and the leadership team felt it. The strike disrupted our routines and tested our patience, but it also showed our resilience, and in many cases, brought us closer together. I've heard stories of how many of us found ways to support one another, stay connected, and adapt in uncertain times.

Coming back doesn't mean things instantly return to normal. Some of us feel ready to dive in, others are still finding our footing — and that's completely okay. What matters most now is that we move forward together, with openness, understanding, and respect for where each of us is at.

Rebuilding our rhythm will take time. Thank you for all you've done — and continue to do — for each other and for the people we serve. It's really good to have you back.

Toby
